United Nations Development Programme

Date: 7 December 2021

Subject: Clarification Note No.1

To the attention of potential applicants,

Reference is made to the Request for Proposal posted on 30 November 2021 regarding the Providing “Conducting an assessment on the situation of drug-induced mortality with special emphasis on women and children in the city of Tehran”. with the deadline of 8 December 2021.

A clarification has been raised in response to the inquiries raised by some the offerors on below issues:

Question 1:

The title is "Conducting an assessment on the situation of drug-induced mortality….". But in the Annex I (Description of Requirements) it says: "The present activity intends to shed light on the reasons for non-fatal overdose….”

Answer 1:

As stipulated in the TOR, for the first phase of the activity which is the present activity, it is aimed to look for reasons for non-fatal overdose especially among women with drug use problems and children. The title used is more of a general term which will be used it for the second phase. Please inform the consultant that we are looking for a proposal that looks into non-fatal overdose situation assessment.
