<p><i>With regard to the evaluation of UNDP support to poverty reduction in the least developed countries (DP/2019/4) and the management response thereto (DP/2019/17):</i></p>	EVALUATION	BPPS	<p><i>Para. 7:</i> Takes note of the evaluation of UNDP support to poverty reduction in the least developed countries (LDCs), presented at the first regular session 2019, and the management response thereto; and requests UNDP, in line with the evaluation findings, conclusions and recommendations, to consider a more consistent programmatic engagement for poverty reduction in areas highly relevant for LDCs, and outline LDC-specific approaches and solutions that benefit people living in poverty, particularly in Africa</p>	Update at Annual Session 2020	<p>UNDP is currently preparing a report focused on the challenges and opportunities for LDCs in Africa, which is expected to provide policy and programmatic guidance to our Country Offices to better inform the preparation of their CPDs, CCAs and UNDAFs/UNSDFs. UNDP has launched the largest innovation network of 60 Accelerator Labs, serving 78 countries, including 27 LDCs and mostly in Africa. These Labs will become integral to UNDP’s existing country-based teams and infrastructure, and will enable UNDP to connect its global network and development expertise spanning 170 countries, with a more agile, innovation capacity to support countries in their national development priorities. This network of Labs will facilitate the identification of locally sourced and relevant solutions that can be scaled up. By 2020, we will take stock on the progress and partial results in LDCs.</p>	<p>In Progress</p>

	EVALUATION	BPPS	<p><i>Para. 8:</i> Further notes the evaluation’s recommendation regarding resource investment towards gender equality and women’s empowerment, including the finding that opportunities for mainstreaming gender equality and women’s empowerment in programme design and implementation have been underutilized in LDCs; urges UNDP to enhance systematic development support including through specifically targeting gender equality and women’s empowerment within poverty reduction interventions to promote stronger impact in LDCs through informed programming with the aim of lifting women out of poverty; and requests UNDP to update the Executive Board on steps taken in this regard through its existing reporting</p>	Annual Session 2020	<p>Resources for gender have not declined. During the Strategic Plan period of 2014-2017, it might appear so due to the linking exercise where most programmes at CO level were forced to select only one output and often did not link to gender specifically. Under the current Strategic Plan, gender related outputs are integrated across all outcomes. In addition, it is a mandatory requirement for all programmes and projects to have meet a minimum threshold in the Gender Marker to be approved. Women's Economic Empowerment (WEE) is a top priority for UNDP and its work on poverty eradication. From July to August 2019, UNDP facilitated an e-discussion for six weeks on the issue across its Global Community of Practice on Gender and the Community of Practice on Poverty and Inequality to define areas of priorities (this includes: social protection and unpaid care work; social protection and unpaid care work, recognizing and incentivizing</p>	<p>In Progress</p>

	EVALUATION	BPPS	<p><i>Para. 12:</i> Also notes the evaluation's recommendation regarding the need to enable linkages between UNDP community-level sustainable livelihood programmes and rural poverty alleviation policies in LDCs, and requests UNDP to update the Executive Board on improving measures taken in this regard through its existing reporting</p>	Annual Session 2020	<p>UNDP has recently launched the Poverty-Environment Action (PEA). PEA builds on the deep experience of the UNDP–UN Environment Poverty-Environment Initiative (PEI). Over the past decade, PEI has pioneered integrated approaches to mainstreaming poverty-environment linkages in national development planning and implementation processes. By building on PEI’s legacy, Poverty-Environment Action is expected to ensure that the environmental dimension is not left behind when addressing poverty. Leveraging broader 2030 Agenda and SDG implementation processes provides new entry points not only to mainstream environmental sustainability, but also to address related climate concerns for poverty eradication. PEA particularly targets LDCs.</p>	<p>In Progress</p>

	EVALUATION	BPPS	<p><i>Para. 15:</i> Encourages UNDP to act on its intentions to develop a more ambitious support frame to countries on poverty reduction in response to the concerns raised in the evaluation, and to ensure that poverty reduction remains a central pillar of the UNDP Strategic Plan.</p>	Update at Annual Session 2020	<p>UNDP is facilitating discussions across its units, the Global Policy Network, and its Global Community of Practice on Poverty and Inequality to consolidate its common narrative to support poverty eradication efforts in LDCs, including available relevant guidance, good practices and consolidation of analytical tools to promote inclusive and sustainable growth. A first package of consolidated analytics and tools should become available by early 2020. UNDP is conducting work on frontier issues to distill policy lessons to inform its programmatic offer on poverty and inequality. UNDP's flagship report, the Human Development Report, will be launched later in 2019, focusing on inequalities beyond income. UNDP and ILO have initiated collaboration on the Future of Work to define an offer of support to programmatic countries, including LDCs.</p>	<p>In Progress</p>
