Let's Play Safely!
I’m **Mohammed** and I’m in the 4th grade. I love watching cartoons and playing football!

I’m **Sara** and I’m a 5th grader. I love science and math, and gathering information!

I’m **Saleh** and I’m in 4th grade too! I love technology and video games!

I’m **Noor** and I’m in 3rd grade. I love sports and jumping rope!
It’s the end of the school year and the start of the summer break. We usually play in an open plot, but now the owner has started construction. We need to find a new place that is safe to play together.
This will be the worst summer break ever!

Does it mean that we can’t play again?

I have an idea!

There’s an empty plot at the other side of the road. Let’s go and play there!

W... W... WAIT!

C’mon! We’ll have so much fun!

Let’s go!

Huh?

What?

Don’t go there!

It could be dangerous!
We can’t go there without asking our parents! It could be filled with hidden and dangerous bombs that can seriously hurt us!
My Uncle Ahmed knows a lot! He can tell us what to do.

Why don’t we ask him?

Good idea! Let’s go to Mr. Ahmed!

We must take a safe way! Help us find it!
Pick a safe route

Be careful of weird things

Always watch out!

Thanks! We’re safe now!
Now let's find a safe place to play!

But first, you must know dangerous places to avoid.

- Abandoned or wrecked houses
- Damaged military locations
- Electrical installations and power plants
- Plots with big trees and long grass
Find 12 differences

What will you do if you see a strange object on the ground?

Tell me...

I won’t go near it, but I might try to touch from far...

Never do that!

It’s very dangerous!
Things to know about explosives

These objects can still be dangerous after many years.

Never touch them! They may explode from the smallest touch.

Watch out as anything could be explosive, NEVER touch strange objects.

Be careful! Sometimes they are hidden and you can’t see them.

691
Watch out!!

There’s a strange object two steps ahead.

Good job! We are safe now!

Don’t forget Taiz Mine Action number! 04/244242

A strange object! Go back to 61!

Careful! Go back to 37!

Don’t forget Aden Police Department! 199

Be careful! Go back to 21!

Welcome! You need to reach 100 safely!

Keep going! Nothing strange here...
Don’t forget Aden Mine Action number! 02/301702

You have an adult help! Go to 67!

Don’t forget Hadramout Mine Action number! 05/307840

Watch it! Go back to 70!

Watch out!!

There’s a strange object two steps aheads

Move ahead to 87

Careful! Go back to 46!

Go back to 91!
I became interested when I was your age.

Uncle Ahmed, how do you know all of this?

I was playing with my friends as usual...

When we found a strange object on the ground.

We were curious.

Our friend was telling us to stay away...

So we called him a coward.

I wish we didn’t.

Many of my friends died that day.

Since then, I worked to not let that happen again!
There was a strange object while we were playing football. We thought it was just junk.

This reminds me of what happened to me when I was in 1st grade...

While playing...

I kicked the ball and hit the can.

BOOM! A big explosion happened!

My friend was off in the distance.

He was smart enough to stay away.

He wanted to save us!

So he ran for help.

Unfortunatley, I lost my left foot.

I learned to be very careful when playing.

He’s a hero for helping us.
Uncle Ahmed gave us this map. He challenged us to find the safest places in town.

Can you guess?
This place is an old military area, but it is abandoned now. They say it is cleared from all explosives.

But this doesn’t mean we can play here! It is still risky and possibly dangerous!
This is farmland with many big trees and thick grass.

No one uses it anymore and we can't tell if it is safe. We should stay away!
This area is between two houses and one of them is abandoned.

It may look safe, but there is a big chance of finding explosives in abandoned buildings!
This area is the highest location. It is secure and suitable for us to play!

But our friend Saleh will struggle climbing the hill every day. We must skip it too!
This is the safest place!

It’s in a residential neighborhood.

It has also been cleared by experts!

We should always ask our parents before playing! My mom said the area is cleared and safe to play!

Play with your friend!

Card game

Game rules

You only need to draw 6 cards and keep them face down so you can't see what’s on them. Each player takes a turn flipping a card and adding the number of stars they get. Whoever finishes the 6 cards with most stars wins!
Play with your friend!

Card game

Game rules

If your lucky, you’ll get a bonus card that allows you to play another turn and a better chance of finishing first. If you get a strange object you can only start counting stars again if you get a card with 4 or more stars!
